

Maxwell Nyimbili

Your site, built by someone who actually cares how it turns out.

I'm a full-stack developer and AI engineer taking on a small number of freelance projects. If you've got an idea for a site or product, let's talk about bringing it to life, properly, from the backend up.

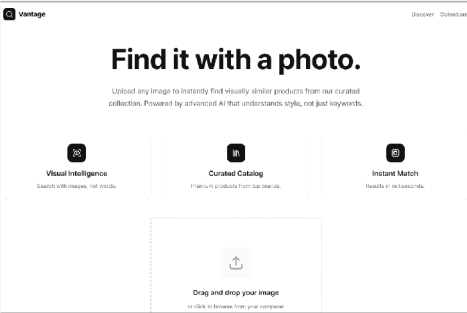

SERVICES

Portfolio & Personal Sites For creators, professionals, and students who need a site that actually represents them.	Business & Landing Pages Marketing sites, product pages, and small-business presence that loads fast and converts.	Full-Stack Web Apps Custom tools, dashboards, and e-commerce, anything beyond a static site.

HOW IT WORKS

01 Discovery Understand the goal, audience, and scope.	02 Design Layout and visual direction, signed off before build.	03 Build Development with regular check-ins, not a black box.	04 Launch Deployed, tested, and handed off with docs.
